

Mountain West Society of Plastic Surgeons
3rd Annual Scientific Meeting
Resident Abstract Presentations | Sunday March 11th

Time	Presenter	Program	Title
10:00a	David Hill	Rush University Medical Center	Pedicled latissimus dorsi myocutaneous flap for posterior thoracic reconstruction following eloesser flap takedown: a case series
10:07a	Becky King	University of Colorado	Indications and outcomes of single-pedicle versus two-pedicle thigh free flaps in head and neck reconstruction
10:14a	Karen Lo	University of Colorado	Combined TUG PAP using SPY as an aid in perineum reconstruction
10:21a	Alicia Heelan Gladden	University of Colorado	Delayed DIEP flap loss: a complication of microvascular progress and earlier discharge
10:28a	Ryan Kunkel	University of New Mexico Hospital	When free tissue transfer is not an option: complex traumatic lower extremity reconstruction using perforator flaps
10:35a	Sagar Mehta	University of Utah	Use of bone allograft during palatoplasty of the hard palate
10:42a	Salih Colakoglu	University of Colorado	Interim data from CT-angiography prior to DIEP flap breast reconstruction a randomized controlled trial
10:49a	Kathleen Holoyda	University of Utah	The use of bilateral paraspinous muscle flaps and bilateral composite latissimus dorsi and gluteus maximus flaps for closure of lumbosacral myelomeningocele defects in infants
10:66a	Lacey Pfilbsen	Mayo Clinic	Use of social media in plastic surgery resident recruitment. A perspective from the applicants.
11:03a	Neal Moores	University of Utah	Pedicled omentum for coverage of extra-abdominal vascular bypass graft in the groin, a case-report
11:10a	Sarah Sasor	Indiana University	Oncoplastic nipple sparing mastectomy with immediate, implant-based reconstruction: technique and outcomes
11:17a	Rhett Willis	University of Utah	Cherubism in a 4-year-old boy managed with tumor debulking and mandibular osteotomies and repositioning
11:24a	Nicole Kurnik	Mayo Clinic Arizona	Beauty and the bull; traumatic rupture of a breast implant in Pamplona, Spain
11:31a	Melody Scheefer	University of Utah	Cross-leg flap reconstruction: a systematic review
11:38a	Joseph Gorvetzian	University of New Mexico SOM	A single center retrospective evaluation of a surgical strategy to battle biofilm utilizing absorbable antibiotic beads.
11:45a	Jonathan Cook	Cleveland Clinic Florida	A case report of breast reconstruction with a DCIA-based SIEA free flap
11:52a	Andrew Peredo	University of Colorado Denver	A2 pulley reconstruction - a novel approach using allograft
11:59a	Tyler Evans	Indiana University	The impact of traumatic dog bite injuries necessitating surgical treatment in elderly
